Bachelors in Engineering, ICT Metropolia UAS/Helsinki

09/2014 - 04/2019

WORK EXPERIENCE

Fullstack Developer D3.AI

07/2024 - Present

Central Expy, Dallas

Dallas Based Data Science and Ai Solution specialising in the power of data to drive business growth Machine Learning and AI solutions.

Achievements/Tasks

- Developed a react/express dashboard for displaying results produced from company's MVP, a medical ML model.
- Applied Zustand for frontend state management and mysql for user data. Streamlined whole process to continuously deploy as docker container via Git actions to a VPS.

Contact : Kris Ghimire - kristech43@gmail.com

Jr Fullstack Developer Outback Yak

10/2023 - 09/2024

Melbourne, AU

Empowering businesses with cutting-edge Full Stack Development, DevOps, Cloud Technologies, AI, data analytics, and more.

Achievements/Tasks

- Contributed to the development of a virtual, pedagogical tool for medical training. Employed React for the frontend, Koa/Typescript for the REST API layer, and integrated LLM infrastructure from OpenAI, IBM, and Anyscale.
- Played a pivotal role as the sole frontend developer, successfully debugging and resolving a critical logical error in the scorecard, preventing score-chart overflow in 21 distinct chatbots.

Contact : Bishal Sapkota - hello@outbackyak.io

Frontend Developer Intern Ubiikki Oy

11/2016 - 07/2017

Helsinki, FI

Achievements/Tasks

- Collaborated as a core developer in the creation of interactive HTML5 games for educational purposes, enhancing student engagement and learning outcomes.
- Utilized Cloubi, the company's proprietary content creation toolset, while working seamlessly with a large, distributed team across Helsinki and Tampere offices.

Contact : Tero Rynkä

PERSONAL PROJECTS

Compatly (11/2024 - 11/2024)

- A Tinder style swipe and select, wellbeing matching/compatibility application for candidates and companies.
- Built in Junction Hackathon 2024 as Aava Lääkärikeskus's hacking challenge as the only developer in the team.
- Tools: React, Express, Mysql, Docker, Caddy.

Jobd.Link (04/2024 - Present)

- Developed a job application tracking platform to help job seekers efficiently manage and monitor their job applications.
- Application sharing to linkedin for referrals and social media features enabled.
- Tools: Zustand, React, LinkedInAPI, Express, Docker.

Portfolio (06/2024 - Present)

- Built portfolio first in Angular and then vite React. Used fancy animations and react-intersection-observer for lazy loading effect.
- Data is centrally passed as React Context. Tictactoe and Pomodoro are implemented for personal use.

Boujie Apparels (01/2021 - 12/2021)

- A clothing ecommerce store built as Integrify assessment.
- Fully typescript implemented and hosted as docker container as a PM2 process in EC2.
- Tools: React, Redux, Typescript, Saga, TypeORM, EC2, PM2, Route53, Express, Docker.

CERTIFICATES

Fullstack Developer, Integrify (01/2021 - 12/2021)

AWS certified Cloud Practitioner (06/2021 - 06/2027)

Machine Learning/ Deep Learning/ Computer Vision
(04/2024)
